What Sets Us Apart

As one of Southern California's oldest and largest machine shops, the Bender CCP Vernon Facility is a 100,000 sq. ft. shop with a 100-ton lifting capacity. With multiple locations along the Pacific Rim, Bender CCP is uniquely able to scale capacity to suit even the largest jobs. Our wide range of capabilities makes us a "one-stop" shop for repairs. Our machine shops have been servicing high-wear components in dozens of industries for many years. With a full complement of equipment, skilled personnel and a reputation for service, we enable you to operate your equipment more efficiently and reliably for years to come.
